Ambigapathi V

Data Analyst

Salem - Tamil Nadu | 9488936650 | ambigapathikavin2@gmail.com | https://www.linkedin.com/in/ambigapathi-v/ | https://linked-to-my-resume.lovable.app/

PROFESSIONAL SUMMARY

Data Analyst skilled in SQL, Python, Excel, Power BI, and exploratory data analysis. Hands-on project experience in data cleaning, data transformation, validation, statistical analysis, visualization, KPI reporting, and dashboard development. Focused on identifying trends and presenting clear, actionable insights for data-informed decisions.

TECHNICAL SKILLS

Data Analysis: SQL, Python, Excel, EDA, Data Cleaning, Data Validation, Statistical Analysis

SQL: JOINs, Subqueries, CTEs, GROUP BY, CASE Statements, Window Functions

Excel: Pivot Tables, XLOOKUP, VLOOKUP, Data Validation, Charts

BI & Visualization: Power BI, Tableau, DAX, Power Query, KPI Dashboards

Python: Pandas, NumPy, Matplotlib, Seaborn

Analytics: KPI Analysis, Trend Analysis, Business Insights, Reporting, Problem-Solving

SELECTED PROJECTS

Sales Insights - Brick & Motor Business | Power BI, SQL

May 2026

- Designed an interactive Power BI dashboard to analyze AtliQ Hardware's sales trends, performance, and key business metrics.
- Developed sales visualizations and KPIs to help stakeholders understand sales trends and make data-driven business decisions.
- Identified sales opportunities and performance gaps with insights aimed at increasing revenue by approximately 7% in the following quarter.

T20 World Cup Cricket Data Analytics - Cricket Analysis | Python, Web Scraping, Pandas, Power BI

May 2026

- Created a Power BI report to identify the top 11 players for a T20 cricket team by collecting data from ESPNcricinfo using web scraping tools and processing it with Pandas.
- Cleaned and transformed player statistics and evaluated key performance metrics to categorize players as openers, middle-order/anchors, finishers, all-rounders, and specialist fast bowlers.
- Built an interactive dashboard to compare player performance and select the best-performing combination of 11 players based on data-driven analysis.

HR Data Analytics - HR Domain | Power BI, Excel

May 2026

- Designed a Power BI dashboard to track employee working hours, attendance, performance, and leave-related metrics for HR analysis.
- Created interactive reports and KPIs to provide HR teams with employee insights and improve data-driven decision-making.
- Streamlined recurring HR reporting processes, with the dashboard capable of saving approximately 3–4 hours of manual work per day.

LEADERSHIP & CONTRIBUTIONS

Open-Source Data Analytics Contributor - Omdena

Mar 2025 – Present | Remote

- Collaborated with a global team on real-world data analytics projects involving Python, data preprocessing, EDA, and data visualization.
- Contributed to Kitwe News Aggregator and Healthcare Accessibility Analysis - Sudan projects.

EDUCATION

Bachelor of Science in Agriculture - Annamalai University

May 2018 – May 2022 | Chidambaram, Tamil Nadu

CERTIFICATIONS

Master Machine Learning for Data Science - Codebasics (Sep 2024)

Local Chapter Challenge – Local News Aggregator and Analyzer for Kitwe, Zambia - Omdena (Nov 2024)

Complete MLOps Bootcamp With 10+ End To End ML Projects - Krish Naik / KRISHAI Technologies Private Limited (Dec 2024)
