Professional Summary

Data Analyst skilled in SQL, Python, Excel, and Power BI, with **hands-on experience in global open-source analytics through Omdena**. Proven expertise in EDA, data preprocessing, and interactive dashboard development. Leveraged **large-scale datasets and collaborative projects** including news aggregation and healthcare accessibility to translate complex data into actionable business insights.

Technical Skills

Data Analysis: SQL, Python, Excel, EDA, Data Cleaning, Data Validation, Statistical Analysis

SQL: JOINS, Subqueries, CTEs, GROUP BY, CASE Statements, Window Functions

Excel: Pivot Tables, XLOOKUP, VLOOKUP, Data Validation, Charts

BI & Visualization: Power BI, Tableau, DAX, Power Query, KPI Dashboards

Python: Pandas, NumPy, Matplotlib, Seaborn

Analytics: KPI Analysis, Trend Analysis, Business Insights, Reporting, Problem-Solving

Experience

Omdena | Global Open-Source Collaborative Project

Mar 2024 – Present

Data Analyst / ML Contributor

Remote

- Collaborated with global cross-functional teams to build automated data extraction and web scraping pipelines for real-world social impact initiatives.
- Processed, cleaned, and standardized large-scale unstructured text datasets (100,000+ data points) using Python (Pandas, NumPy) to extract meaningful regional trends.
- Implemented data preprocessing and validation workflows to transform raw scraped content into structured formats for downstream analysis.
- Coordinated cross-functional insights delivery, translating complex text data into actionable metrics for stakeholders.

Projects

Sales Insights - Brick & Motor Business | Power BI, SQL

May 2026

- **Spearheaded** the development of **1** interactive Power BI dashboard to analyze AtliQ Hardware's sales trends, performance, and key business metrics across **5** regional markets.
- **Integrated** Power BI and SQL to develop interactive sales visualizations and KPIs, enabling **12+** **stakeholders** to evaluate sales trends and support data-driven decisions.
- **Identified** sales opportunities and performance gaps through SQL-based sales analysis across **10,000+** transaction records, translating findings into actionable business insights.
- **Championed** revenue-growth opportunities through sales performance analysis, generating insights aimed at approximately **7%** revenue growth in the subsequent quarter.

T20 World Cup Cricket Data Analytics - Cricket Analysis | Python, Web Scraping, Pandas, Power BI

May 2026

- **Pioneered** a data-driven player selection workflow using **Python, Pandas, and Power BI** to identify the top **11 players** for a T20 team.
- **Executed** data cleaning and transformation of player statistics, categorizing players into **5 distinct roles** using key performance metrics.
- **Coordinated and conveyed** role-based performance comparisons through an interactive Power BI dashboard to evaluate player combinations.
- **Guided** team selection by comparing player performance across roles and identifying the best-performing combination of **11 players**.

Education

Annamalai University

Bachelor of Science in Agriculture

May 2018 – May 2022

Chidambaram, Tamil Nadu

Certifications

Master Machine Learning for Data Science - CodeBasics (Jan 2024)

Omdena Project Completion Certificate - Kitwe News Aggregator Project (Jan 2024)
